

[CAPABILITY STATEMENT]

People & Core Competencies

Founded in 1999 as a program management firm specializing in high-end living, Forrester Developer has grown into a full-service construction firm providing a variety of services including: General Construction, Construction Management, Residential Construction and Design, Earthwork, Federal Contracting, Weatherization and Disaster Response. We take great pride in being good listeners and constantly strive to improve the quality of our work. We also believe, a large part of our success is due to our partnership approach, which utilizes our extensive network of highly qualified, financially stable professionals. Our practical, integrated management system means you have a single point of accountability throughout the entire project.

[CAPABILITY STATEMENT]

Past Performance

We take great pride in being good listeners and constantly strive to improve the quality of our work. Read what a few of our clients and colleagues say about our results:

The work performed on the subject project was performed in response to a natural disaster. The contingency environment presented unique challenges not present during normal operations. Forrester Developer arrived on site with a knowledgeable workforce, the proper equipment to preform the work, and "can do" attitude that made the outstanding completion of the work required possible. Forrester Developer performed work under the contract in a professional and workman like manner that was not affected by the challenging working environment and harsh work conditions. They were a pleasure to work with on the project.

—Dale Campbell, PE, US Army Corps of Engineers

Beth Forrester worked with us on an Alabama DOT federally funded project during 2011. I worked with her on accounts payable/receivable and scheduling the entire project. Her work was on time and on budget. I would recommend her for other construction jobs.

—Ken Hopkins, Smitherman Bros. Construction

Company Data

- HCG DUNS Number: 140405734
